

Davis Carlson Memorial

Friends, Family, Community

The Davis Carlson Memorial was formed January 2006 in loving tribute to our son and our community. Davis passed away December 25, 2005, at the age of eleven, at Children's Hospital in Seattle following a twelve month battle with leukemia.

The memorial was created because of the outpouring of community support for Davis and his family throughout his illness. We—friends, family and community—honor Davis' legacy through this memorial.

Davis was an enthusiastic sports fan, though only eleven years of age, he could tell you an almanac's amount of information about teams and individual players, from football, basketball, baseball, and golf. Davis loved playing sports, he collected sports cards, was an avid video game player, and great friend to many.

The foundation is working hard to raise money throughout the year in various fundraisers. Money raised will be used to grant a yearly scholarship to a graduating senior on the merits of *Community Service*. The memorial's current focus is to make the dream of a Stanwood community center come true for kids. Initial plans are ready and construction will begin soon. A temporary building is currently being used for the kids, it is called Davis Place.

Please join us in our upcoming tournament at Camaloch Golf Course on beautiful Camano Island. You could be a hole sponsor or donate a prize.

Thank You,

Garry Carlson
